Career Profile

An aspiring software developer intern, with basic knowledge in software engineering, and proven practical knowledge in HTML, CSS, Javascript, Typescript, React and MongoDB. This knowledge has been applied practically in tasks during my internship and training. Also possess basic IT and security skills which strengthen my troubleshooting, technical know-how and problem-solving prowess. Would love to join an exciting team to foster my knowledge in this field and contribute my quota to the development of the team and organization at large.
